CLERK  
FAMILY COURT

Honorable Judge Elizabeth Mass,  
I object to having to disclose the information requested by Mr. Tabana the last time he requested this information, my attorney, Cathy Kamber, asked for my Wachovia statements. I informed her I had asked for them but never received them. She put in a conference call to the bank to learn that the information had been sent to Mr. Tabana.

After submitting all the required documents, Mr. Tabana then posted all the information on the abolish-alimony.org website. Besides my social security number being exposed he included credit card statements, utility bills, bank statements etc.

I do not want to find myself in this unacceptable situation again, because of Mr Babana's actions!

I am fearful of identity theft even after closing or changing as many accounts as possible. Further, I called to see if the check for \$250.00 had been posted by Jan 1/2009. It was not received.

Sincerely,  
Sharon Mayo
